25X1A

It is tentatively planned that the deployment of [redacted] equipment in the [redacted]
[redacted] aircraft will be reviewed at the Program Review Board on
22 December 1964. The review at that time should indicate the coordination
which will be effected with the Navy, the type of installation proposed in the
aircraft, the method for maintaining the equipment and analysing the data.
In short, the preliminary program outline. Indication of sources of funds to
cover and anticipated costs should also be spelled out if possible.
